Erin Argo | Résumé | CV

- **Status:** Research Assistant at Augusta University, B.Sc in Computer Science
- **Skills:** Java, C#/.Net, C, C++, PHP, Python, JavaScript, SQL, R
- **Interests:** Game Development, Human-Computer Interaction, Fullstack Engineering, Research
- **Links:** Website | Github | LinkedIn

Summary

I graduated from The University of North Carolina at Greensboro in 2024 with my Bachelors of Science in Computer Science where, as a student, I worked as a research assistant under Dr. Regis Kopper. Since then, I have been an avid researcher and PhD student of Human-Computer Interaction working under Dr. Jeronimo Grandi at Augusta University in Augusta, Georgia. My active interest is in researching, designing, and developing 3D User-Interfaces. I have eight years of experience in Fullstack Engineering and Game Development with two years of experience as a researcher.

Projects

2025 – Present **Asymmetric Cross-Reality Collaboration – ACCR** Github Link | Publication Link

ACCR is a Mixed Reality Simulation of a collaboration game with the common goal of learning about Environmental Sustainability in Urban Environments.
For ACCR I acted as the Senior Lead Developer and Researcher and managed a team of five other people including three researchers and two other developers.

2024 – Present **FirstModulAR – FMAR** Publication Link

FMAR is a modular Augmented Reality Simulation designed to aid First Responders.

I led the Systematic Literature Review for this project, prepared resources for publication, communicated results at demonstrations and conferences, and assisted in development and designing user studies.

2024 **StyleVeRse – StyleVR** Github Link

StyleVR is a fashion show simulation in Virtual Reality designed for Research.

Developed in collaboration with a colleague to support their research.

2024 **Entities of the Void – EotV** Github Link

EotV is a cooperative game about fighting aliens made in Unity.

I was a junior developer on this project in collaboration with two other developers.

Experience

8/24 – Present **Research Assistant** Augusta University

- Assisted with the preparation of research findings for publication, including writing sections of reports or papers
- Designed, Developed, and Tested novel 3D User-Interfaces using C# and Unity
- Communicated research results through presentations at conferences and live demonstrations
- Conducted statistical analysis and interpreted results to draw conclusions or suggest further research

8/23 – 8/24 **Research Assistant** UNC - Greensboro

Education

2024 – Present **Doctoral Degree, Computer Science** Augusta University

2021 – 2024 **Bachelor's Degree, Computer Science** UNC - Greensboro
